## Moon

### Moon in Capricorn

Yours is the most practical of environments. You can manipulate and every idea or situation and put it to good use. Emotions are seldom a priority, and you are always very practical and ambitious. Your career is central to everything you do. Farsighted and traditional, you enjoy success and the successful. You are, for the most part, unmoved by tears and feelings.

### Moon in 5th House

You are at your most expressive when urged on by a group or in an environment that you feel is supportive. You may enjoy group sports or working with children or animals. Creativity and its expression are very important in your life.

### Moon Opposition Venus

You have trouble appreciating or feeling comfortable with your emotions, especially when with others. Your particular set of values and appreciation may provoke confrontations with others. You don't care how they may be feeling, and they may not be very supportive of some of your own values. You are not noted for your great sense of discrimination when it comes to your surroundings including the environment you live in. You don't care much for psychology, customs, and traditional values, in general.

## Sun

### Sun in Cancer

You are a very sensitive person who can depend on feelings and intuition to get around in life. Possessing good common sense, you are always very practical and down-to-earth -- mothering and protective to all. Security is very important. You also love cooking, growing things, and music.

### Sun in 11th House

Perfect as a group leader, where your innate idealism and love for humanity can blossom. Group or community work -- anything that is altruistic or serves the common good -- is where you can be found. You strive to make your dreams

and ideals real.

### Sun Square Jupiter

You tend to be stubborn and unable to make solid career choices. You get carried away and go off in directions contrary to your actual needs. Your judgment in vocational matters is often off, sending you on a wild goose chase. In addition, there is possible difficulty with authorities and the law and/or differences with older people. To use an old adage, you can (at times) be your own worst enemy. The advice of a trusted friend regarding career is to be recommended.

### Sun Trine Uranus

You work well with those in authority who are independent and original. You could find yourself engaged in nonconformist causes, always ready to promote what is independent and innovative. You like radical approaches, and find yourself in support of whatever new-wave product or breakthrough advance is next in line. Communication, computers, electronics, and everything new-wave excites you and you excel here. You discover new ways of working with traditional materials.

## Mercury

### Mercury in Leo

You are dynamic and always expressive in thought and speech -- dramatic. You appreciate your own ideas, and tend to be outgoing in speech and manner. Fresh. Warm. You put forth strong views and are hard to influence or change. Emotional and a good entertainer, you are louder than average and tend to exaggerate. You are a lover. There are always plenty of tears and laughter.

### Mercury in 12th House

Your mind is naturally interested in all that is psychological and beneath the surface of things. Ideas of self-sacrifice and compassion -- how to serve and help others -- are what you tend to think about.

### Mercury Sextile Neptune

Great psychological talent. Able to sense and feel in the more abstract mental areas and to bring far-out ideas down to earth. Always at the leading edge of social understanding. Great sense of compassion and a real understanding of others.

## Venus

### Venus in Cancer

Homeward bound! With you, the domestic scene is ideal. Marriage, children, animals, gardens -- the whole works. You like to feel secure. Sensitive too. You are dependent on others and like to be taken care of, even mothered. You love music, can be very emotional, and tend to be protective.

### Venus in 11th House

You love community projects and group work of any kind. Your sense of values finds you on the side of altruism and humanism at every turn. You appreciate goals and efforts at the global level.

## Mars

### Mars in Virgo

You have an innate urge to save, salvage and conserve, and can make a silk purse from a sow's ear. You always want to help and to be of service -- be fully used. You hate waste and are very thorough and precise. For the most part, you are understanding and accepting, but this can turn into criticism and pettiness. You are careful and a perfectionist.

### Mars in 1st House

You have a strong drive to be seen and known -- to communicate yourself to others. Personal appearance (the way you present yourself) is also a motivating factor.

### Mars Square Saturn

You waste a lot of energy sailing into the wind and clashing against authority or reality for no good reason. You resent having to get serious, go to work, and take on responsibilities. Your efforts tend to lack the determination and organization necessary for real accomplishment. Very little can be accomplished without some sort of discipline and training, and you resist these like the devil. You avoid work.

### Mars Square Neptune

You hate a lack of clarity, especially when it comes to your feelings and emotions. This is a less than ideal world as far as you are concerned, and you are for making the best of it. Whatever dreams and ideals you may have had are somehow shut off from the day-to-day realities you face. You would rather ignore your dreams than be tortured by their remoteness. You are suspicious of pie-in-

the-sky and have an abnormal fear of being deceived, in particular in matters of love and feelings. A sign of emotional tension.

### Mars Square Pluto

There could be a lot of emotional tension with this combination. You tend to set yourself against whatever forces of change manage to rear their heads around you. This is never more true than where your feelings are concerned. Your attempt to remain untouched and impersonal seems doomed to failure.

Everything intrudes, gets too personal, and threatens to hurt your feelings. Your insistence on being an emotional island is probably interspersed with bursts of anger, even fits of rage.

## Jupiter

### Jupiter in Scorpio

An in-fighter, with animal-like instincts when it comes to big business, you are always where the action is most intense. Your penetrating mind gets through the B.S. and straight to the bottom line every time. Exciting to be near, you are an entrepreneur, the big wheel. Sometimes restless, driven.

### Jupiter in 3rd House

A born investigator and researcher, always inquiring, searching, following things to their logical conclusion. Your career will probably be built around these qualities of yours -- communication, making connections, thoughts and ideas, and so on.

### Jupiter Semi-Square Saturn

You tend to pursue options and go off in directions without adequate organization and planning. You need discipline but have trouble submitting to learn it, preferring instead to take what appears to be an easier path, ending up short of your goals.

### Jupiter Trine Neptune

You would do well in a career in music, poetry, psychology, philosophy -- the realms of the imagination. You work well in these areas and can help or teach others by sharing your understanding. You can serve as a guide to the nether worlds of the mind and psyche -- religions, mysticism, and so on. Spiritual problems and questions are easy, for you always grasp the unity behind what appears separate.

### Jupiter Conjunction Ceres

Generosity when you're picking up the emotional tab is often your hallmark, and you're likely to find that folks always come back for more of what you've got to offer as a result. But that's what taking care of people is all about, at least in your experience. If you're not going to go all the way, what's the point?

## **Saturn**

### **Saturn in Sagittarius**

There could be difficulty with long-term goals and philosophies. You don't trust them. Nearsighted, with your nose to the grindstone, you need to travel and explore the length and breadth of the mind and world. Open up. Learn to value freedom, frankness, independence. Look up!

### **Saturn in 4th House**

You have very simple needs regarding home and surroundings. Some might find you frugal. It may be difficult for you to send down roots, build a home-base, and feel secure. Feelings and emotions may be on the sparse side.

### **Saturn Opposition Pluto**

You are very touchy and tend to keep your vulnerability hidden from others. You work hard at avoiding personal confrontation and sensitive issues. In fact, you are very determined about this. Areas where you are insecure seldom have any opportunity to get aired out and toughen up. Your serious exterior covers over tender feelings. Duties and responsibilities could keep you from opportunities for change and inner growth.

### **Saturn Conjunction Juno**

You may have rather understated expectations of marriage and the situation that surrounds it, possibly because of previous unfavorable life input, possibly because it simply doesn't seem to offer you the opportunities you are looking for. In any case, your inclinations will likely be to restrict and minimize the possibilities.

## **Uranus**

### **Uranus in Sagittarius**

You have new philosophies ideas for the future and new approaches to travel and exploration (of all kinds). Long journeys interest you. You may startle others with your direct conversations, always getting right to the nitty-gritty. You enjoy being alone, free, and on the move. The original optimist.

### Uranus in 4th House

You are very independent when it comes to your own security and family. This could mean an unconventional-style home or furnishings, or a different approach to sentiment, nostalgia, and history.

### Uranus Conjunction Chiron

Building a new world order is part of your heritage, but it can also be part of your undoing to the extent that you don't have direct control over it and are overtaken by the flood of destiny. What you learn from this in your youth will be a textbook of guidance and warning for future generations.

## Neptune

### Neptune in Gemini

The dream of worldwide communication (networking) where research and science are the key. Fantasy and science-fiction flourish too. You are a great love of inspired conversation and enhanced communication -- all kinds of connections. Great ideas, flights of fancy. Sharing thoughts.

### Neptune in 10th House

Your practical skills are linked to your almost mystical inner vision. You manifest your ideals and dreams in an organized and clear-headed manner. You would be great at giving the public a sense of the ideal via films, advertising, spiritual work.

## Pluto

### Pluto in Gemini

A good detective or research person. You can't help but get past all that is superficial. A passion for inquiry, questioning, and searching finds you always in pursuit of some piece of information... communicating, writing, speaking.

### Pluto in 10th House

A tremendous practical sense and drive cuts through all the red tape and exposes the right decisions every time. You may have an ability to organize and manage all that is vulnerable and sensitive in the human psyche... the public mind.

## Node

### Node in Sagittarius

Before you take on the truth, be sure you can handle it. Knowing you are right and going ahead are two different matters, and the latter can require the rest of your life. The reward, however, is to learn how things really are put together and what that truth is and the trails it takes, in glorious detail.

#### Node in 4th House

You don't have to go far from home to do what you have to do. If anything, you should be careful not to cloister yourself too much in the name of duty, lest fundamental joys become a burden. However, fame comes when you least expect it, when your attention is sincerely elsewhere and your ship suddenly comes in.

## Midheaven

#### Midheaven in Gemini

Some may say you are all things to all people, and that may not be fair. But don't lose opportunities where being thought of as flexible and adaptable are what some see in you. When in doubt, take the credit.

## Ascendant

#### Ascendant in Virgo

You are careful and precise and come across as a caring and responsible person. Your attention to detail and analytical skills (and probably mental, verbal) is obvious to all meeting you. Your appearance is always refined and neat.

## Chiron

#### Chiron in Sagittarius

If anyone is inclined to answer to a higher authority, it's you -- however, your reply is more likely to come in deeds than words, if you really get it right. It's one thing to talk the talk, quite another to walk the walk and take the inner and outer risks that come with it. But, no pain, no gain.

#### Chiron in 4th House

Home is where the heart is, and often worth breaking your heart over in the process. You'll spend time searching for your roots, and you may have to lose them (or be willing to give them up) in order to find them. The most important things in life are often in plain sight, once you finally notice.

## **Ceres**

### **Ceres in Scorpio**

The most natural way for you to take care of someone is to become passionately involved, showing you care with every fiber of your being. The temptation to be overly possessive in the process can run very high, with jealousy or suspicion lurking on the fringes, so avoid confusing love with ownership.

### **Ceres in 3rd House**

A good word or two from you does wonders to comfort and reassure, and you're likely to be ready to give whether asked or not. Talk is not cheap when it's coming from you, but rather a welcome and precious commodity for those who need to better understand their situation. You could have been a shrink, or maybe you are...

## **Pallas**

### **Pallas in Libra**

Sorting out relationships comes naturally, sometimes too much so as you can be pulled into brokering or refereeing situations that might simply take up extra time that's not really extra. In your personal case, the challenge is to direct the building of your own situation and live in it at the same time.

### **Pallas in 2nd House**

There is a clear economic strategy, or ought to be, and you're likely the one to spot it. It's based not on profits alone but on long-term value, and that doesn't just mean future price. Value is something you want, and want to keep, and when you understand what comprises that, the rest just follows along.

## **Juno**

### **Juno in Sagittarius**

For you, marriage and partnership should ideally be a free and open affair, but in that very ideal lie the seeds of abandonment. How do you keep something rare and important uncaged, without boundaries, without control? There's a middle ground that satisfies, but on either side lies potential destruction.

### **Juno in 4th House**

Marriage and home are one and the same to you, although that does not necessarily mean a stay-at-home marriage. It's about your partner serving as a home to you, and vice versa, a situation that is about rooting each other to the

ground, grounding each other to your roots. Very classical expectations of seeking/finding your parents in your partner.

## **Vesta**

### **Vesta in Aries**

Quick focus means narrowing in swiftly on your subject, throwing the very center of yourself at the challenge at hand without a second thought. Going in without a second opinion, however, can get you in trouble or cut you out of the general loop, so at least seem to include those around you before you go for the bullseye.

### **Vesta in 8th House**

Everything old is new again, or can be once you set your sight on it, because you value neglected resources and are ready to tap into what others have to offer, often more than they know it. In the process of looking at outer possibilities, what has been there in your pocket all along may get overlooked.
